

The figure displays a 2D grid representing sequence comparison or conservation. Both the horizontal and vertical axes are labeled with the sequence: GCGCUUCGCCGCGCCGCA. The grid contains numerous black '+' characters. A prominent feature is a diagonal line of black '+' characters running from the top-left corner to the bottom-right corner. Additionally, there is a series of black squares forming a diagonal band that starts near the bottom-left (around position 10) and extends towards the top-right (around position 80), indicating specific matches or motifs along the sequence.
